> Come and meet nearly 100 exhibitors:

suppliers of materials and services for the maintenance and development of aquatic environments, green space development companies, engineering consultancies, public works companies, ecological engineering works companies

NEW !

Forestry Techniques Village

Forestry work will be adding a new dimension to the show. Come and discover the various skills, equipment, techniques and solutions for managing natural areas.

> Free access conferences:

on current topics, regulations and feedbacks

> Live equipment demonstrations

The perfect opportunity to see machines in action!

> An authentic Gallic village:

The exhibition will be structured around several highlights: demos, activities, competitions, giant barbecue...!
